

National mirroring and participation in the European (ECISS) and International (ISO) work on standards for:

- Steel castings for pressure purposes
  - steels for use at room temperature and at elevated temperatures
  - steel grades with low temperature properties
  - stainless steel grades
- Corrosion resistant steel castings for general purposes
- Heat resistant steel castings and heat resistant alloys
- Steel castings for construction purposes and general technical delivery conditions
- Austenitic manganese steel castings
- Centrifugal steel castings
- Welding procedures for production welding of steel castings
- Testing (NDT-testing)
